

All interest rates and Annual Percentage Rates (APR) shown on our website are subject to change without notice. APR's are based on a loan amount of \$200,000 assuming a 20% down payment with zero points. If the down payment is less than 20%, mortgage insurance may be needed on the loan. This could increase the monthly payment and the APR.

The actual interest rate and fees available to you may vary based on such factors as credit score, loan-to-value ratio, type of property, loan purpose, loan type, and the presence of subordinate financing, therefore the actual interest rate available may be different than the interest rate quoted here.
